

MASA Launch Pad Sign-Up Sheet

RSO inspection and approval of your rocket required if: It weighs more than one pound OR uses a cluster of motors OR uses an "E" or larger motor OR it's an unproven design making its first flight
NO "ESTES" (paper) WADDING! Please use only the provided cellulose wadding.

ONE PAD PER PERSON PER SHEET (RACK)! Please fill in all information and PRINT clearly!

Pad #	PRINT your first and last name	Name of your rocket	Motor(s) include delay!	Your comments, notes, warnings	RSO's OK	LCO Notes
1						<input type="checkbox"/> GO <input type="checkbox"/> NO GO
2						<input type="checkbox"/> GO <input type="checkbox"/> NO GO
3						<input type="checkbox"/> GO <input type="checkbox"/> NO GO
4						<input type="checkbox"/> GO <input type="checkbox"/> NO GO
5						<input type="checkbox"/> GO <input type="checkbox"/> NO GO
6						<input type="checkbox"/> GO <input type="checkbox"/> NO GO
7						<input type="checkbox"/> GO <input type="checkbox"/> NO GO
8						<input type="checkbox"/> GO <input type="checkbox"/> NO GO

Choose a launch pad appropriate for your rocket. Please avoid changing launch rods unless absolutely necessary! Have yourself and your rocket ready when this rack is ready to load.

Do not approach the pads until the LCO gives the OK. If you need assistance using the launch equipment, please ask any MASA member (look for our name tags) for help.

If your rocket fails to launch, you must remove it and sign up for a new pad in a later rack.
